Medical Museum Science Café 2016

SEEDS OF THE REVOLUTION: INNOVATION IN THE CARE OF THE AMPUTEE PATIENT

TUESDAY, APRIL 26, 6-7 PM

Join Dr. Matthew Carty, Director of the Brigham and Women's Hospital Lower Extremity Transplant Program and Research Scientist for the MIT Center for Extreme Bionics, for a talk about advances in managing lower extremity amputees, including novel approaches to amputation, prosthetic development, and a means to link human biology to bionic technology.

Image above: Navy volunteers are framed between the prosthetic legs of a Paralympic Military Sports Camp participant at Balboa Naval Medical Center. Paralympic Military Sports Camps are multi-day events to introduce veterans and military personnel with physical injuries to a variety of summer and winter sport opportunities. This work, Paralympic Military Sports Camps [Image 1 of 3], by PO3 Travis K. Mendoza, identified by DVIDS, is free of known copyright restrictions under U.S. copyright law.
