## Otis Historical Archives

### OHA 134 Chance Ophthalmology Collection

**Date of Records:** 19<sup>th</sup> Century-1944

**Size:** .25 cubic feet, 1 box

**Finding Aid by:** Eric W. Boyle (2012)

**Access and Use:** The Otis Historical Archives is committed to providing open access to its collections as far as possible within the limits of privacy and confidentiality. Some of the records may contain restricted material. Access to this collection is at the discretion of the Otis Historical Archives and material contained within the records may be subject to review before access is granted.

**Series/Scope and Content Note:** This collection consists of ophthalmologic material, mostly related to prominent doctors, collected by Dr. Burton Chance. Materials include reprints, photographs, manuscripts, Chance's personal correspondence, and exhibit labels. There is also Chance material in Historical Collections. The collection was probably given to the Museum by the American Ophthalmological Society, who received it from Chance.
