## THE SMART NEURO ICU: TREATING BRAIN INJURIES IN THE INFORMATION AGE

You haven't heard of the "Smart Neuro Intensive Care Unit" yet, but you will soon. Funded by the Department of Defense and designed in collaboration with industry and academic partners, the Smart Neuro ICU will become a laboratory for testing concepts that promise to improve the outcome of patients with brain injuries.

Presented in conjunction with Moberg Research and the Telemedicine and Advanced Technology Research Center (TATRC) at the U.S. Army Medical Research and Materiel Command.
