

# DEADLY BITES:

## DISCERNING FACTS FROM FICTION

SATURDAY, OCTOBER 31, 2015

10 AM – 12 PM

Vampire bats, rabid animals, plague-infected prairie dogs, spiders, snakes, mosquitoes, even bedbugs-- the thought of being bitten by just one of these gives us nightmares. Visit the Medical Museum on Halloween to learn the **FACTS** and dispel **MYTHS** about animal and insect bites. This is a free, family program. Questions? Call (301) 319-3303.
