

## Microscopy Day Open House: Magnify Your World

**Saturday, Oct. 20, 1-4 pm**

**Silver Spring Civic Building, Fenton Room,  
One Veterans Place, Silver Spring, MD 20910**

Microscopes give people an opportunity to investigate what cannot be seen with the naked eye. Join Museum staff and local microscopists for a series of hands-on activities and demonstrations that will inspire you to observe your world more closely. Learn about early microscopes and lenses, magnification, the staining process, fluorescing microscopy and more! Audience: Grades 5 and up.

This is a free drop-in family program, no reservations required
