Access and Use: The Otis Historical Archives is committed to providing open access to its collections as far as possible within the limits of privacy and confidentiality. Access to this collection is at the discretion of the Otis Historical Archives and material contained within the records may be subject to review before access is granted. Files containing private patient information and protected administrative and grant records are currently closed to researchers.

Series/Scope and Content Note: The collection consists of 56 lectures on reel-to-reel audiotapes by AFIP pathologist Lent C. Johnson recorded by the donor, an orthopedic surgeon, during his Air Force assignment at the AFIP; also two audiograph discs. Most of the talks are on orthopedic pathology; some are from a meeting of the American Rheumatism Association. Also includes an Edward R. Murrow interview with J.R. Oppenheimer and talks by other AFIP doctors. OHA does not have a machine to play these.
