

BUG PALOOZA!

NATIONAL
MUSEUM
OF HEALTH AND
MEDICINE

2500 Linden Lane, Silver Spring, MD 20910

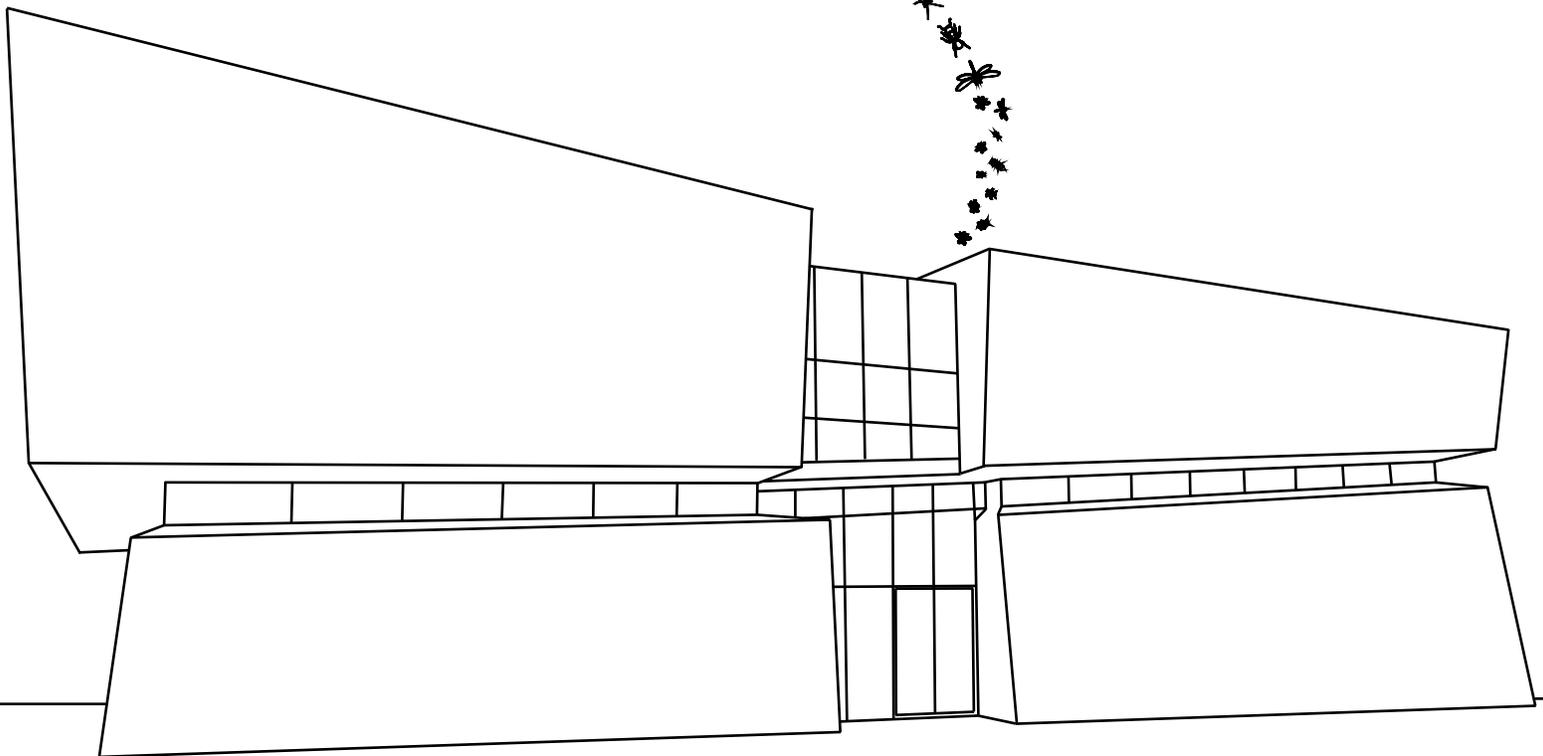

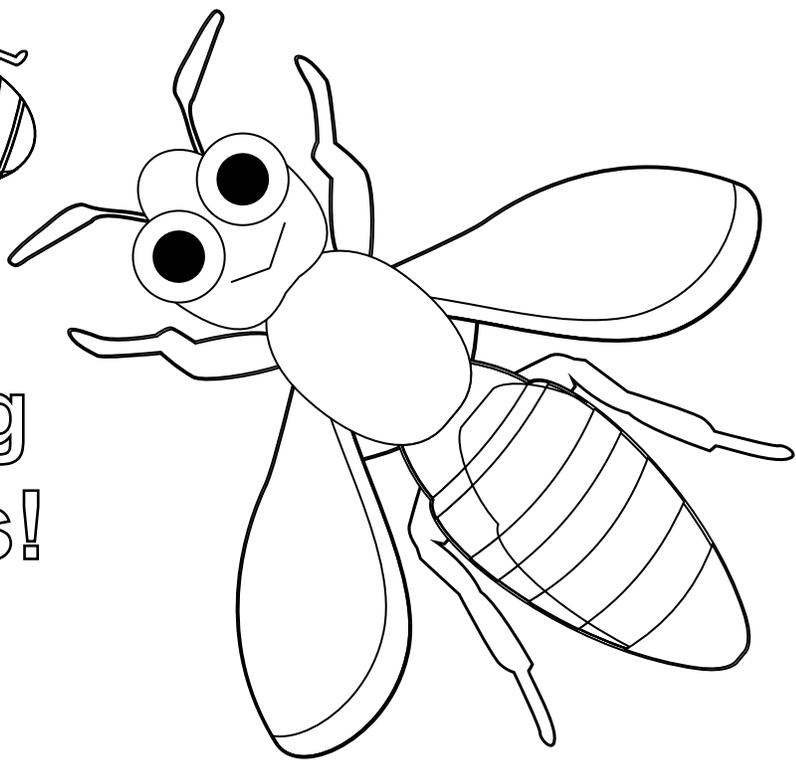

Stink bugs produce bad smelling chemicals from glands on the sides of their bodies to warn off predators.

**NATIONAL
MUSEUM
OF HEALTH AND
MEDICINE**

2500 Linden Lane, Silver Spring, MD 20910

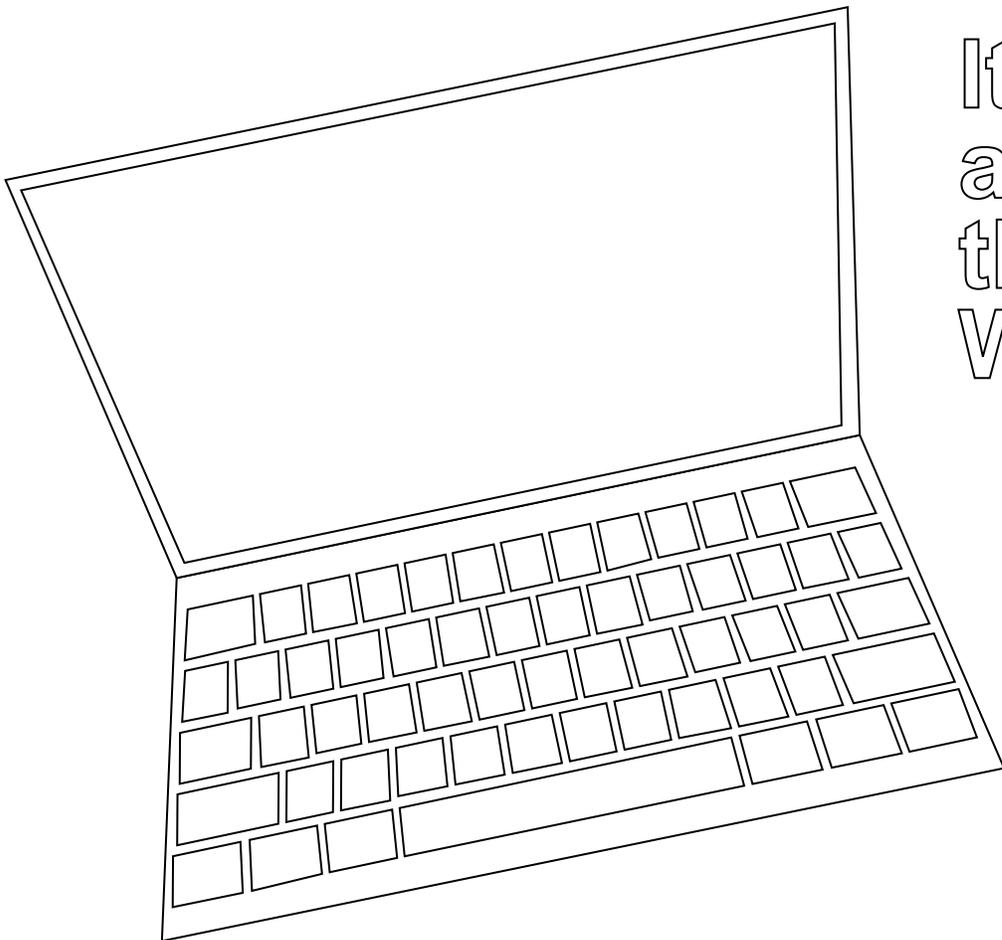

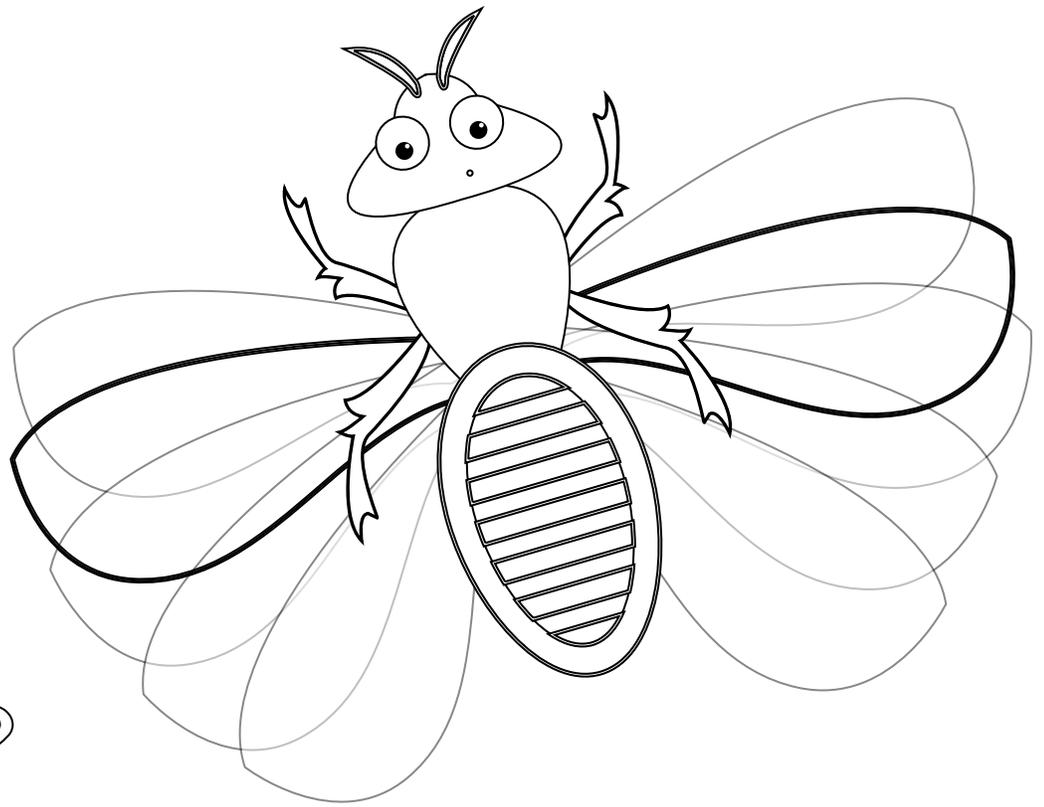

Let's go bug
the artifacts!

**NATIONAL
MUSEUM
OF HEALTH AND
MEDICINE**

2500 Linden Lane, Silver Spring, MD 20910

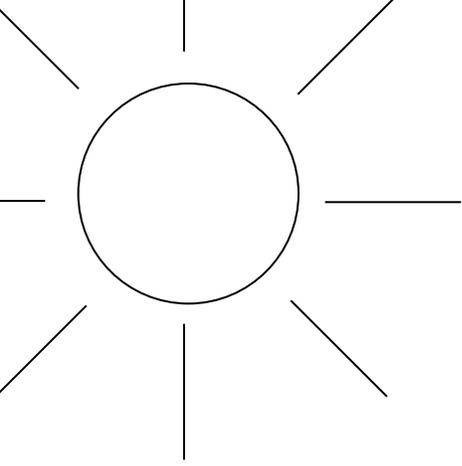

Why did
the fly
never land
on the
computer?

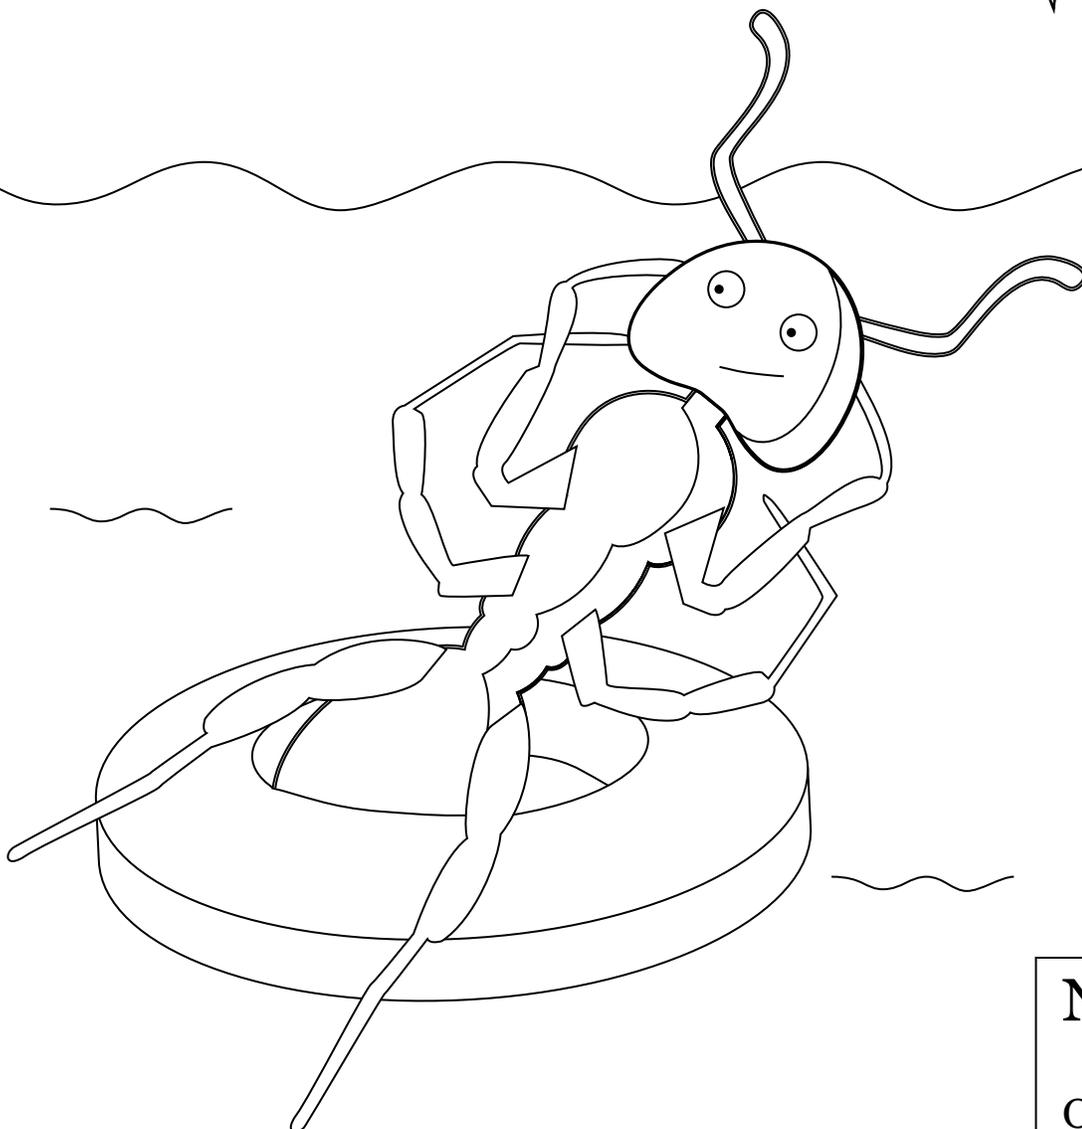

It was
afraid of
the World
Wide Web.

**NATIONAL
MUSEUM
OF HEALTH AND
MEDICINE**

2500 Linden Lane, Silver Spring, MD 20910

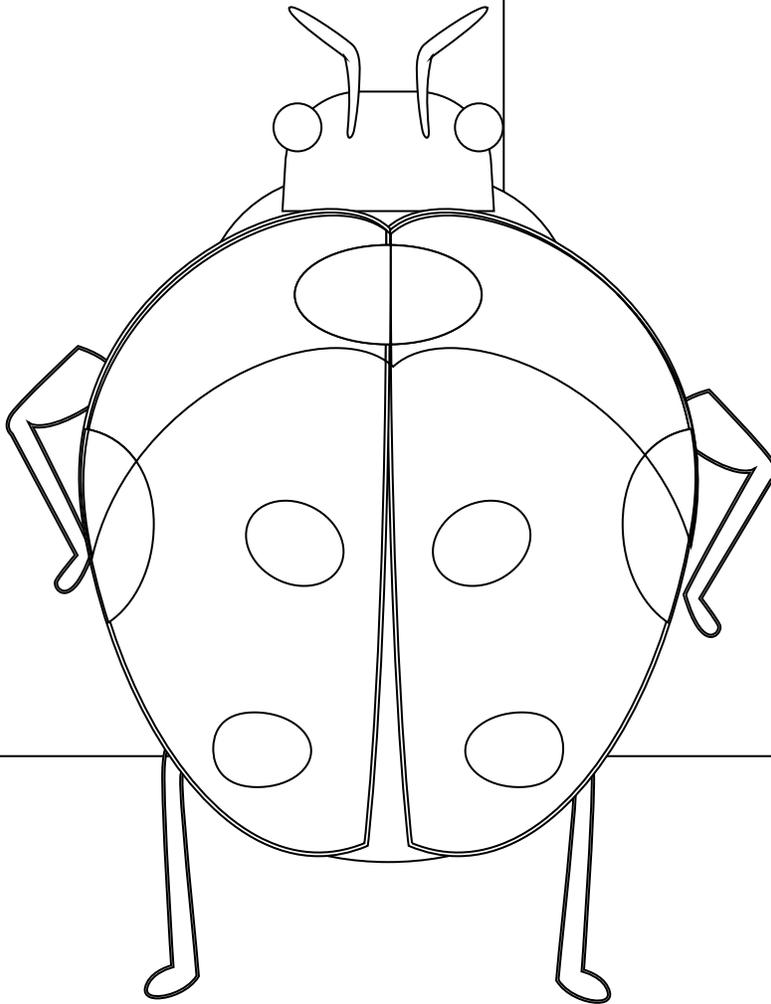

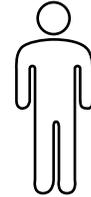

Many true bugs
are aquatic.

**NATIONAL
MUSEUM
OF HEALTH AND
MEDICINE**

2500 Linden Lane, Silver Spring, MD 20910

What kind of bug
can't go in the
men's bathroom?

A ladybug!
