

MEDICAL MUSEUM SCIENCE CAFÉ 2015

Making Them Whole: Ocular Prosthetics

SEPTEMBER 22, 2015, 6-7 PM

Join anaplastologist Louis Gilbert from the Walter Reed National Military Medical Center (WRNMMC) for a history of ocular prosthetics and watch a demonstration of the seven-step process of creating prosthetic eyes. Gilbert and a team of technicians in the WRNMMC dental lab specialize in producing lifelike facial prosthetics. Whether the patient has lost an eye due to injury or disease, his work helps his patients feel whole again.

Image above: Louis Gilbert says he has "absolutely the best job. It's really rewarding."
