

BACK TO BASICS

VIRTUAL

Brain Awareness Day

Friday, March 19, starting at 10 a.m.

Join museum staff and partners to learn BRAIN BASICS during a Facebook event that will include a series of educational videos, activities, and information about the brain. Topics will include brain anatomy and physiology, concussion and traumatic brain injury, brain development, and more. Tune in to our Facebook page @medicalmuseum and check our website to learn more and for brain-related resources: <http://www.medicalmuseum.mil>.

Presenters:

DHA Hearing Center of Excellence
DHA Psychological Health Center of Excellence
DHA Traumatic Brain Injury Center of Excellence
